

## NO LID? WE GOT YA COVERED!

DumpsterGard was created to provide a solution to end users of 20, 30 and 40 yard waste dumpsters looking for a way to reduce costs associated with the disposal of waste.

Our patent pending DumpsterGard system offers an economical solution by providing a durable, easy to install, and securable 4-piece rugged polyethylene panel system that will:

- Keep rain and snow from soaking solid waste, which can make the waste heavier and increase disposal costs. Also keep contaminated liquids from seeping from dumpster and into ground water.
- Decrease liability by keeping unauthorized people out of your dumpsters.
- Decrease dumpster hauls by keeping other people's trash out of your dumpsters.
- Reduce fines and be environmentally friendly by keeping hazardous materials out of your dumpsters and ultimately, the landfill.
- Keep people from stealing your valuable recyclables and any sensitive documents.

DUMPSTER GARD

Looking For A Better  
Way to Cover Your  
Roll-Off Dumpsters?

Made From 90%  
Recycled  
Materials

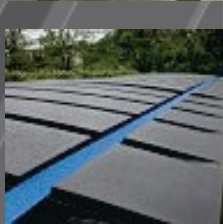

**1-888-585-5581**  
**dumpstergard.com**

## HOW IT WORKS

- Our rugged polyethylene panels are made from over 90% recycled materials and are 100% recyclable.
- The **DumpsterGard** panel is lightweight, yet rigid enough to still do the job in extreme heat and durable enough to hold its shape over time.
- Adjustable enough to account for length and width variances in 20, 30 and 40 yard dumpsters.
- Every **DumpsterGard** kit comes with industrial strength ratcheting nylon straps
- Can handle heavy snowfall, high winds, extreme heat, hail and rain.

**FITS THESE SIZES**

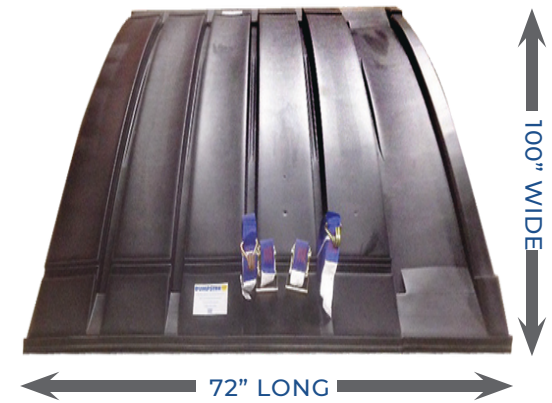

A standard 4 pc kit will fit these sized roll-off dumpsters.

**Only 43 lbs Each!**

THE STRENGTH IS IN THE DESIGN

UNDERSIDE OF PANEL

*“In the past, we struggled with tarps and boards with little success. DumpsterGard covers are easy to handle, can be removed in minutes and have never sagged or buckled. We are also happy that we are not paying extra for waterlogged material anymore. Thanks again!”*

– **LAWRENCE KULOWIEC**  
Manager - City of Redding Ct. Transfer Station and Recycling Center

*“As a property manager, I like the protection that DumpsterGard affords me as to who is placing what in the on-site dumpsters.”*

– **TIM PHINNEY**  
The Enterprise Center, Sayre, PA

*“I think they are great! It covered our container perfectly.”*

– **HOWARD WOODS**  
Plant Engineer, Abington Reldan Medals, LLC
